EDUCATION

University of Copenhagen

2025 - Current

First-year PhD Candidate | Department of Machine Learning

Supervisors: Christina Lioma & Maria Maistro

University of Zurich

2022 - 2024

Masters in Informatics | Major: Artificial Intelligence

Grade: 5.5/6

Indian Institute of Technology, Kharagpur

2013 - 2018

Integrated BSc+MSc in Mathematics and Computing

PUBLICATIONS

TECHNICAL SKILLS

Programming Languages: Proficient: Python, R, Java | Competent: C, C++

Libraries and Tools: PyTorch, Huggingface, Sklearn, Pandas, Numpy, Git

ML Architectures/Frameworks: Transformers, RAG, LSTM, Representation Learning, CNN

WORK EXPERIENCE

Teaching Assistant

Department of Computational Linguistics, University of Zurich

Sep 2024 - Jan 2025

- Teaching Assistant for the Master's course Machine Learning for Natural Language Processing-1
- Responsible for conducting tutorial sessions and grading

Research Assistant

Department of Management, Technology and Economics, ETH Zurich

March 2024 - Current

- Assist in utilizing Time-Series based Transformers to predict customer interactions

Scientific Assistant

Information Systems Lab, Lucerne University of Applied Sciences and Arts

Feb 2023 - Jan 2024

- Contributed to the development of an **AI Music Generation** System aimed at producing 30-second musical compositions based on input lyrics.
- Responsible for creating an **LSTM-based Chord Generation** model with lyrics serving as input data.
- Worked on **Prompt Engineering** to ensure the production of cohesive lyrics, artwork, and video content using the ChatGPT, Dall-E, and Hugging Face APIs.

Data Scientist

Fidelity Investments, Bengaluru, India

June 2018 - Jan 2022

- Developed **Sequential Recommender System** using **stacked LSTM** to predict customer interaction topics
- Initiated **AI Reading Group** to focus on latest developments in NLP, Explainable AI and Computer Vision
- Worked on **Topic Mining** to categorize customers' pain points using **RAKE**, **Word2Vec**, and **K-means clustering**
- Contributed in creating an in-house **Model Interpretation Toolkit** to analyze model behavior through **SHAP**, **LIME**, and **LRP**

SCHOLASTIC ACHIEVEMENTS

- Recipient of **INSPIRE Scholarship** by Department of Science and Technology, Government. of India. **[2013-2018]**
- **Top 2%** in the JEE-Advanced examination conducted by the Indian Institute of Technology **[2013]**
- **Top 0.1%** of successful candidates of All India Senior Certificate Examination in Mathematics by Central Board of Secondary Education. **[2012]**
